BESPOKE IS BACK

think you should note...

**Delcor**  
BESPOKE IS BACK

Reflecting its name, the Soho is up-to-date, trendy and ultimately flexible.

You can match up an extra large sofa with a smaller one ... add a chic chaise longue to the end, or replace the corner 'seat' with a cushioned stool. You can even include a glass top table and, of course, there are over 10,000 designer fabrics and soft, supple leathers to choose from. In fact, simply think of your perfect corner sofa and you've got it!

**think bigger... or smaller** - see standard dimensions below.

**think any size you want** - we can change the length, height and depth of your sofa or chair, and create a new arm height or width to meet your exact requirements for a nominal extra charge - a truly unique bespoke service.

**think frames** - kiln dried birch, glued and screwed for added strength and built to exact specifications • 15 year construction guarantee.

**think on your feet** - beech wood legs in rich mahogany, natural, ebony, cherry, distressed walnut, oak, sanded effect or chrome finishes • skirt option also available (fabric sofas only).

**think cushions and comfort** - fully coiled steel sprung base, cushioned with a mesh top for maximum seating comfort • Super Reflex 500 foam core, duckfeather or DuPont fibre filled cushions.

**think optional extras** (prices on request) - size modifications • scatter cushions • loose armcaps (fabric sofas only) • fabric protector • on-site assembly • removable arms only (for easier access on delivery).
